

INTRODUCING: SCREAMFEEDER

SINGLES & MORE 1992-2004

The Screamfeeder story is a long one but a simple one. Three Brisbane kids start pumping out albums full of noisy infectious rock in the early 90s and gain critical acclaim wherever they go. Twelve years later and their accomplishments are many: recording with the country's top producers / regulars on the festival circuit / regular hi-rotation on **JJJ** and **Rage** / overseas releases and touring / a dedicated and passionate following in Australia and overseas / 7 albums, and a huge handful of great singles... all finally together in the same place, on their new album **INTRODUCING: SCREAMFEEDER Singles & More 1992-2004**.

A collection of all their hits & Triple J favourites such as **DART**, **STATIC**, **Hi Cs**, **TRIPLE HOOK**, **12345**, **ABOVE THE DOVE**, **MR TUBA**, **STOPLESS** & **BUNNY**, as well as select tracks which have been successful in their own right, including their awesome cover of Style Council's **WALLS COME TUMBLING DOWN**. It spans 12 years of consistent quality work for the band, and with a great range of songs and styles will undoubtedly appeal to fans and anyone who has heard any of these songs on the radio through the years alike. Put simply, this is an essential album for any fan of Australian Indie Rock/Pop and is a great introduction for those who up until now may not have experienced in full the brilliance that is **Screamfeeder!**
